

**Faculty Position
Condensed Matter Optical Experimentalist
The University of Iowa**

The Department of Physics and Astronomy (<http://www.physics.uiowa.edu>) at the University of Iowa invites applications for a tenure-track assistant professor to begin August 20, 2019. The position is for an experimentalist specializing in ultrafast optical spectroscopy of condensed matter materials. A successful candidate may also show interest in the newly launched Center for Research, Exploration, and Advanced Technology in Engineering and Sciences (Iowa-CREATES), a newly formed Materials Analysis, Testing, and Fabrication User Facility (MatFAB) (<https://research.uiowa.edu/impact/news/ui-gears-new-improved-research-center-engineering-and-physical-sciences>), and the Molecular Beam Epitaxy User Facility. For a complete job description and to apply please go to <https://jobs.uiowa.edu/>, and refer to requisition #73484.

A Ph.D. in Physics, Optics, or related field is required by August 20, 2019. For the fullest consideration, application materials should arrive by January 5, 2019, but consideration of applications will continue until the position is filled.

The Department of Physics and Astronomy and the College of Liberal Arts and Sciences are strongly committed to diversity; the strategic plans of the University and College reflect this commitment. All qualified applicants are encouraged to apply and will receive consideration for employment free from discrimination on the basis of race, creed, color, national origin, age, sex, pregnancy, sexual orientation, gender identity, genetic information, religion, associational preference, status as a qualified individual with a disability, or status as a protected veteran. The University of Iowa is an equal opportunity/affirmative action employer.
